Merged: paired difference (95% CI)
realized R^2: facility location − trace
selected benchmarks k
overlap of the facloc and trace sets
shared picks / k
Jaccard
selected benchmarks k
Spearman: gain vs realized R^2 gain
facloc gain, facloc states
trace gain, facloc states
facloc gain, trace states
trace gain, trace states
pick t (state A_{t-1} of the greedy path)
